TECHNOLOGY GOES GREEN

Power By GoGreen™ is a first-of-its-kind, ground-breaking premium power product company that features a sustainable twist. Not only are the products and their packaging 100% recyclable, the products are also manufactured in accordance with RoHS standards.

Power By GoGreen batteries are the first long-lasting, sustainable and recyclable batteries in the world. Available in Alkaline and Super Heavy Duty, there are environmentally-friendly options for any consumer budget. Better yet, Power By GoGreen offers a fully-paid recycling program at their own expense to further contribute to the cause. Consumers simply use the company's dedicated website, iRecycled.com, to participate.

Power By GoGreen continues their product offering with their line of LED Flashlights. These flashlights feature high-intensity LEDs with Brightest White LED Technology and most include Power By GoGreen batteries for optimal performance. They are impact resistant, energy efficient and feature a heavy duty structure. The newest type of LED that has hit the GoGreen flashlight lineup is C.O.B Technology. COB (Chips on Board) , is a new technology of LED packaging for LED light engine. Multi LED chips are packaged together as one lighting module. When the LED's light up, they look like a lighting panel.

To compliment the family of products, Power By GoGreen offers 100% recyclable electrical accessories, surge protectors, wall taps and their latest addition of travel products. Travergo, a sub-brand of Power by Gogreen, launched in 2016 offers a wide variety of travel accessories including, but not limited to, luggage locks, luggage straps, neck pillows, travel adapters/converters, passport holders, luggage tags and many more!

As sustainability movements continue to grow, rely on Power By GoGreen to provide the market with optimal and environmentally responsible solutions for every power need.

TESTIMONIAL:

"I live in Santa Rosa, California in the middle of the wildfires. At 2:30AM the fire department calls and said get out now the fire is barreling down the mountain right at you. I had bought my father GoGreen light switches because he is a gadget man, well those 2 light switches saved our lives getting through the house for a week with no power. A big thank you from my family. The fires have destroyed our city." - F.B Santa Rosa, California

Glossary Page

Wire Gauges

FOR SAFETY, ALWAYS SELECT THE RIGHT SIZE CORD FOR YOUR USE

The table below shows the recommended wire gauge and length for various horsepower and amp ratings. The lengths indicated are maximum length which should be used to provide no more than 5% voltage drop at 115 volts.

HP of Motors (Single Phase)	AMPS	#18AWG	#16AWG	#14AWG	#12AWG
1/4	5.8	up to 74'	up to 118'	up to 188'	up to 300'
1/3	7.2	up to 60'	up to 95'	up to 152'	up to 241'
1/2	9.8	up to 44'	up to 70'	up to 111'	up to 177'
3/4	13.8		up to 50'	up to 79'	up to 126'
1	16.0			up to 68'	up to 108'
1 1/2	20.0				up to 87'

Wire Selection

APPLICATIONS

The table below shows the recommended wire gauge and length for various horsepower and amp ratings. The lengths indicated are maximum length which should be used to provide no more than 5% voltage drop at 115 volts.

2 Conductor SPT-1, SPT-2, SPT-3	Lamps, Radios, Televisions, Clocks, Fans, Electric Blankets, Small Signs, Etc.
3 Conductor SPT-2, SPT-3	Air Conditioners, Refrigerators
3-Conductor, SPT-2	Heating Pads, Electric Blankets, Appliances with Ground
2-Conductor, HPN	Flat Irons, Room Heaters, Broilers, Soldering Irons, Hair Curlers, Fry-Pans, Coffee Makers, Industrial Heating Pots, Paint Removers and appliances requiring heat resisting cord.
2 Conductor, SVT	Floor Polishers, Sanders, Vacuum Cleaners, Food Mixers, Office Machines
2 & 3 Conductor SJE, SE, SJT, ST	Portable Hand Tools, Washing Machines, Polishers, Sanders, Vibrators, Therapeutic Machines, Shop Lights, Dishwashers, Sound Equipment, Medical Equipment

EXAMPLE

GAUGE: 16	NO. OF CONDUCTORS: 3	WIRE TYPE: SJT	OUTDOOR USE: WA
-----------	----------------------	----------------	-----------------

Glossary

UL	Underwriters Laboratories	SPT-2	Same as SPT-1, but heavier construction
OSHA	Occupational Safety and Health Act	ST	Hard Service Cord, Jacketed 600V, 60o to 105o C
AWG	American Wire Gauge	SVT	Vacuum Cleaner Cord, Thermoplastic Insulated
HPN	2-Conductor, Neoprene-Insulated Heater cord	SJE	Junior Service Synthetic Rubber Insulated Conductors w/Overall Rubber Jacket 300V, 60o to 105o C
SJT	Junior Service Thermoplastic Insulated Conductors w/Overall Thermoplastic Jacket V.60o to V1050 c	Polarized	On a polarized plug one blade is wider than the other and in a polarized outlet one slot is wider than the other. Polarization obtains common ground.
SPT-1	All Thermoplastic, Parallel-Jacket, 2 Conductor, Light Duty Cord	SE	Hard Service Cord, Synthetic Rubber Jacketed 600V, 60o to 105o C
